

NURSING HOME FACILITIES

GOALS of Consulting:

Our goals for consulting include reducing medication-related problems, optimizing pharmacotherapy, and ensuring positive patient care outcomes.

What services are involved?

Patient Focused Activities

Disease Assessment and Management

Medication Regime Review

Patient and Family Counseling

Pharmacokinetic dosing services

IV therapy and support

Drug Information

Drug Research Programs

Nutritional Assessment & Support (Oral, enteral and parenteral products)

Our consultant pharmacists are knowledgeable in all aspects of the CMS State Operations Manual and requirements. We are prepared for and trained in the 2006 revisions of the Guidelines for Surveyors for Pharmacy Services and Unnecessary Medications.

We accept most Medicare Part D Insurance Programs and offer medication therapy management. Our delivery service runs twice a day Monday thru Friday and once a day on Saturday and Sunday. Our pharmacists are on call 24 hours a day for emergencies and questions.

Our service includes medications for IV Therapy, prescription & OTC Products, wound care products, Emergency Drug Kits (EDK Boxes), and procedures for returns and destructions.
